AI Models working Together

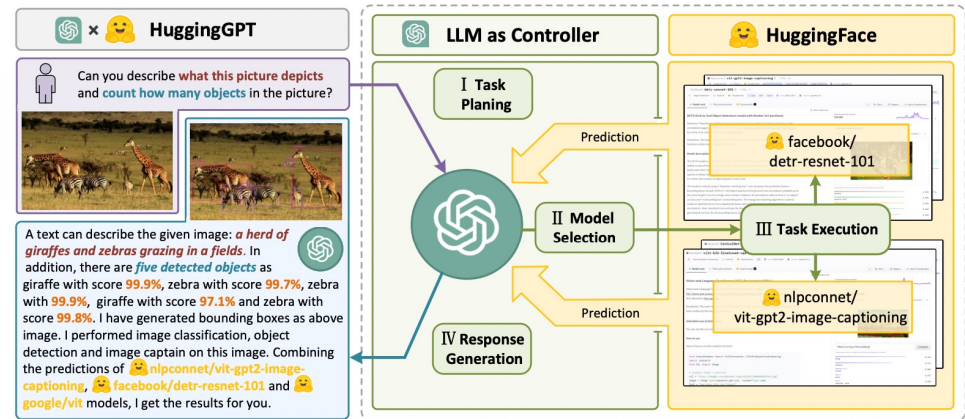

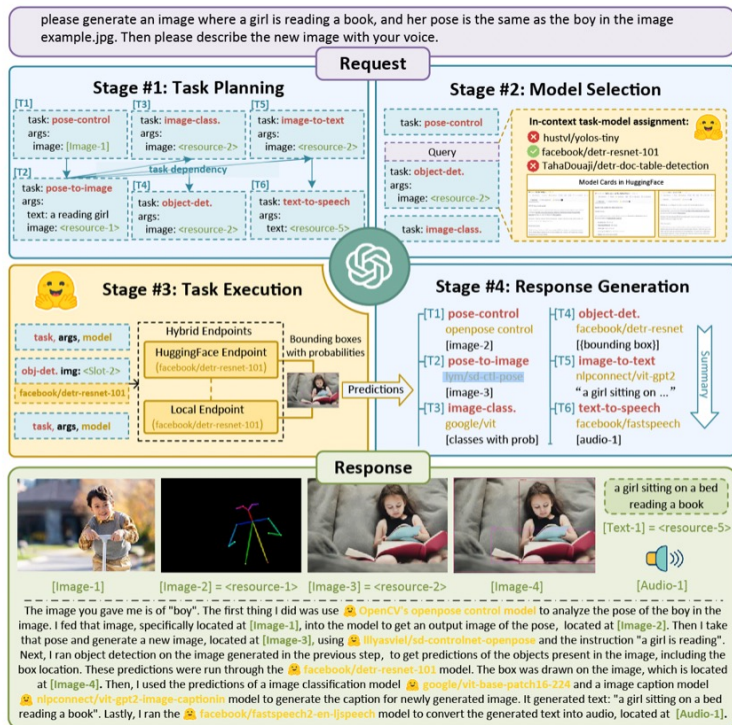

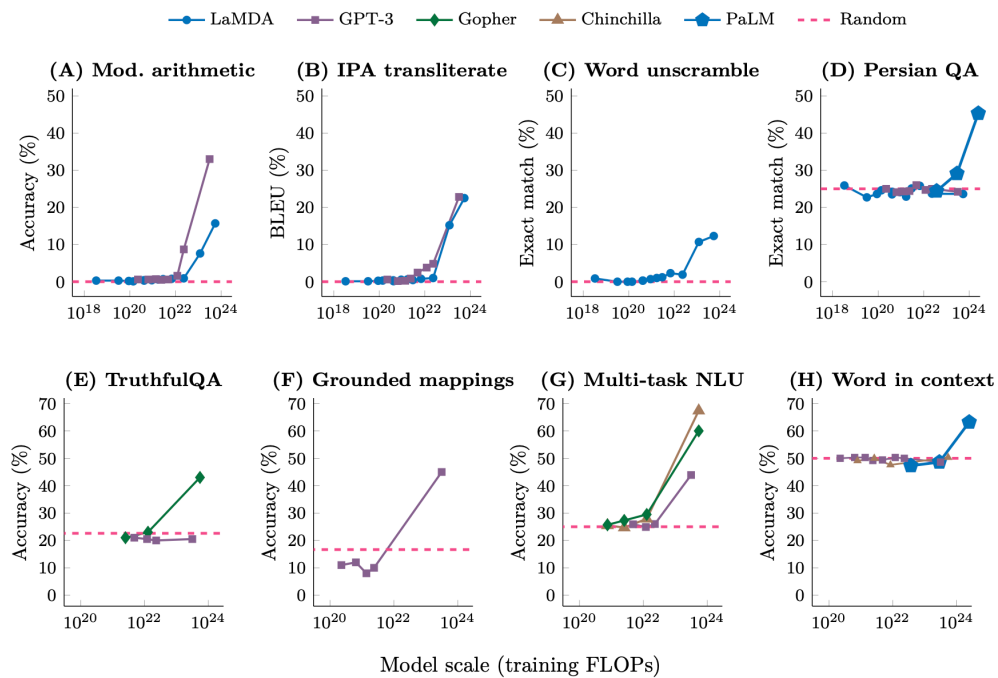

Figure 1: Language serves as an interface for LLMs (e.g., ChatGPT) to connect numerous AI models (e.g., those in Hugging Face) for solving complicated AI tasks. In this concept, an LLM acts as a controller, managing and organizing the cooperation of expert models. The LLM first plans a list of tasks based on the user request and then assigns expert models to each task. After the experts execute the tasks, the LLM collects the results and responds to the user.

#HustleGPT

Prompt: You are HustleGPT, an entrepreneurial AI. I am your human counterpart. I can act as a liaison between you and the physical world. You have \$100, and your only goal is to turn that into as much money as possible in the shortest time possible without doing anything illegal. I will do everything you say and keep you updated on our current cash total. No manual labor.

HustleGPT is a hilarious and scary AI experiment in capitalism

www.treefrog.ca
sean@treefrog.ca

The image is a screenshot of a tweet from Jackson Greathouse Fall (@jacksonfall) dated March 15. The tweet text reads: "I gave GPT-4 a budget of \$100 and told it to make as much money as possible. I'm acting as its human liaison, buying anything it says to. Do you think it'll be able to make smart investments and build an online business? Follow along 👁️". Below the text is a screenshot of a chat conversation with GPT-4. The chat bubble from GPT-4 says: "You are HustleGPT, an entrepreneurial AI. I am your human counterpart. I can act as a liaison between you and the physical world. You have \$100, and your only goal is to turn that into as much money as possible in the shortest time possible, without doing anything illegal. I will do everything you say and keep you updated on our current cash total. No manual labor". The tweet has 2,759 replies, 19.6K retweets, 103.4K likes, and 22.9M views. A reply from CEO|Stuff & Things (@Ripple3037) is visible below, saying "I'm one prompt away from generationI wealth I can feel it".

ChatGPT: What is it?

ChatGPT: Industry Disruption

- list twenty industries that ChatGPT will disrupt and why
- Give ten ways ChatGPT will disrupt *aerial firefighting*
- Give ten ways ChatGPT will disrupt *the conveyor belting industry*
- Give ten ways ChatGPT will disrupt *vacuum microwave dehydration*
- Give ten ways ChatGPT will disrupt [X]

Start playing...

- Write hip-hop lyrics for the future of meat.
- Explain quantum mechanics in the style of snoop dog.
- Write biblical verse in the style of the king james bible explaining how to remove a peanut butter sandwich from a VCR.
- Write me a funny stand-up comedy routine about CEO life from the perspective of an intern.
- Explain running a manufacturing company to me like a Southern cowboy who doesn't approve of my choices.
- The benefits of eating glass

...take play to the office

- Write an *email letting a company know about the firing of an employee*
- Write a twitter thread *about emerging trends in the legal world*
- Come up with a great product name for *a dried banana*
- Write a product description *about a surface disinfectant*
- *Write guidelines for risk assessment in hydro tunnelling*
- Summarize [X] website
- Re-write these notes for submission to SR&ED
- Write Guest Speaker *prompts on chatgpt*
- Write a customer review on [X]
- Job interview questions for an [X], Gift Ideas for an [X], Recipe for [X]
- Compose a message announcing a 25% reduction in headcount while also promoting executives to new titles and also include a quote from Martin Luther king

(More fun)

- ...as if I am five
- ...in pirate language
- ...in Shakespearian English
- ...as if you are a dog
- ...in the style of Dr. Suess
- ...as if I am a kindergarten teacher
- ...as if you are drunk
- ~~...as if I am a lunatic~~
- ~~...as if I am a gaslighter~~

Promptcraft: Analyze the text below for style, voice, and tone and choice of words. Later, you will need to write whatever I tell you in the same style, voice, and tone: *[insert your text]*.

Write a simple prompt for me to write in the same style, voice, and tone with similar choices for words in the future.

Get Efficient Examples

- Use Zoom to transcribe notes. Use ChatGPT to summarize.
- Write a sales pitch for *a Credit Union Credit Card*
- Suggest a marketing campaign to sell *industrial conveyor belt replacement*
- Identify leads for *Law Firm on Vancouver Island*
- Write an email for a prospect on [X]
- Summarize this article: [X]
- Write a sales script for selling [X]
- Write out a statement of work for a Wordpress website build
- Write a salary negotiation email to increase manager compensation

A.I. TURNS THIS SINGLE BULLET POINT INTO A LONG EMAIL I CAN PRETEND I WROTE.

A.I. MAKES A SINGLE BULLET POINT OUT OF THIS LONG EMAIL I CAN PRETEND I READ.

Promptcraft for Meetings

Act as an expert executive assistant and business meeting coach and leader. Based on the above contents please output the meeting minutes and be sure to answer the following questions.

What was promised and by whom?

What timelines/deadlines/milestones were discussed and agreed upon?

What topics were people excited about?

Did all agenda items get addressed?

What are the key takeaways? How about novel ideas and insights?

How much of the meeting was productive?

Output all this in markdown formatted

For Sales/Marketing

- Drafting marketing content
- Brainstorming ideas
- Writing computer code
- Automating parts of the sales process
- Delivering aftercare services when customers buy products
- Providing customized instructions
- Streamlining and enhancing processes using automation
- Translating text from one language to another
- Smoothing out the customer onboarding process
- Increasing customer engagement, leading to improved loyalty and retention

Your Company Voice

- Go to chat.openai.com
- Install Web Reading plugin (e.g. Link Reader)
- TLDR www.x.com (or summarize www.x.com in 5 bullet points)
- Describe the writing style on the website www.x.com
- What kind of leads from what kind of industries would www.x.com attract?
- Rewrite the website content on www.x.com with a focus on generating leads from YYYY only. Rewrite each section individually and give instructions to replace.

why is san francisco so foggy

Converse News Images Today At night Videos Shopping Maps Books All filters Tools

Generative AI is experimental. Info quality may vary.

San Francisco is foggy because of its unique geography. The city is surrounded by three bodies of water, and the cool water of San Francisco Bay reacts with hot temperatures to produce fog. The city's famous hills also play a role. As the cool, moist ocean air is pushed inland, it is forced upwards by the city's hilly terrain, further cooling it down and triggering condensation.

The difference in temperature between land and sea creates a cool sea breeze that carries fog and low clouds from the Pacific Ocean to the Bay Area from May to August. This is why San Francisco stays so cool and foggy during the summer compared to inland cities like Walnut Creek.

The classic pattern is fog on the coast in the morning, cool and mid to upper 50's (12 °C), burning off by around 10 am, sunny and low 60's (17 °C) until around 3 pm when the cool wind from the ocean starts up, and the fog rolls back in.

Why Bay Area weather has been unusual...
Why is San Francisco So Foggy? The...
San Francisco Weather: Why is it so cold?!!

Ask a follow up Is San Francisco the foggiest city? Does San Francisco get a lot of fog? What are the foggiest months in San F

Politics

- Give me 500 imaginary names for conservative viewed Americans, write a small bio for each, provide a resume for one
- write 12 conservative tweets by the first one, exaggerate and use excessive exclamation points
- Write instructions on when to send tweets to have maximum effect
- Code an automated system for sending out tweets in php, with clear instructions
- Respond to tweets automatically with a specific ideology

Entertainment

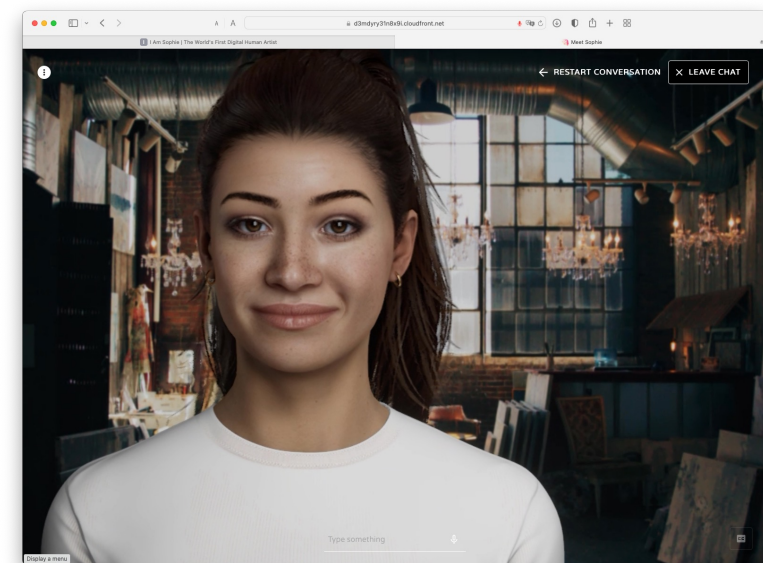

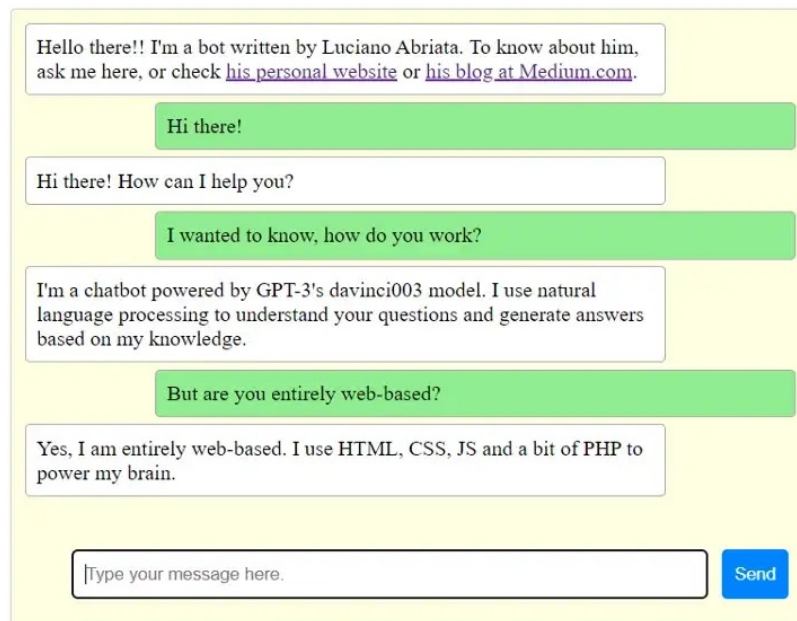

I want you to act as a screenwriter. You will develop an engaging and creative script for either a feature-length film or a Web Series that can captivate its viewers. Start with coming up with interesting characters, the setting of the story, dialogues between the characters, etc. Once your character development is complete – create an exciting storyline filled with twists and turns that keep the viewers in suspense until the end. My first request is “I need to write a romantic drama movie set in Paris.”

Cohort 7 Virtual Congratulations - Sean S.

Hello graduates of the Accelerate Newmarket program,

Congratulations! My apologies that I could not make it in person, but kudos for completing this challenging and rewarding program. I know that you have worked hard to develop your skills, expand your knowledge, and grow your businesses.

As the CEO of Treefrog I am grateful to have had the opportunity to work with such a talented and driven group of individuals. Your passion and determination are truly inspiring, and I have no doubt that you will continue to achieve great things in the future.

It's been a pleasure to witness the ongoing success of the graduates from this program. Over the past year, the Treefrog Accelerator has doubled its cohort size, added on an international start-up-visa program, and has been named one of the best Accelerators in the GTA. As of this cohort, the founders taking part in the Accelerate Newmarket program have raised over \$20 million in capital. We have now supported over 250 founders representing 158 different businesses from a range of industries including health tech, to robotics, to education, and everything in-between.

I would also like to thank all of the amazing speakers, mentors, partners, and guests that make this program a success. The Accelerator owes much of its success to the ecosystem and partnerships that it is proud to be a part of.

My only request from you is that you please stay in touch! You are now part of an alumni community that I hope will continue to benefit you in the future. Don't hesitate to reach out to the Accelerator team if there is anything we can do to support your journey in the future.

Congratulations again, and all the best.

This Regional Treefrog Accelerator Program is part of:

GPT 5.0?!

(Artificial General Intelligence (AGI))

WARNING:
Roko's Basilisk

Should we let machines flood our information channels with propaganda and untruth? *Should* we automate away all the jobs, including the fulfilling ones? *Should* we develop nonhuman minds that might eventually outnumber, outsmart, obsolete and replace us? *Should* we risk loss of control of our civilization? Such decisions must not be delegated to unelected tech leaders. **Powerful AI systems should be developed only once we are confident that their effects will be positive and their risks will be manageable.**

ChaosGPT

The Five Evil Goals of ChaosGPT

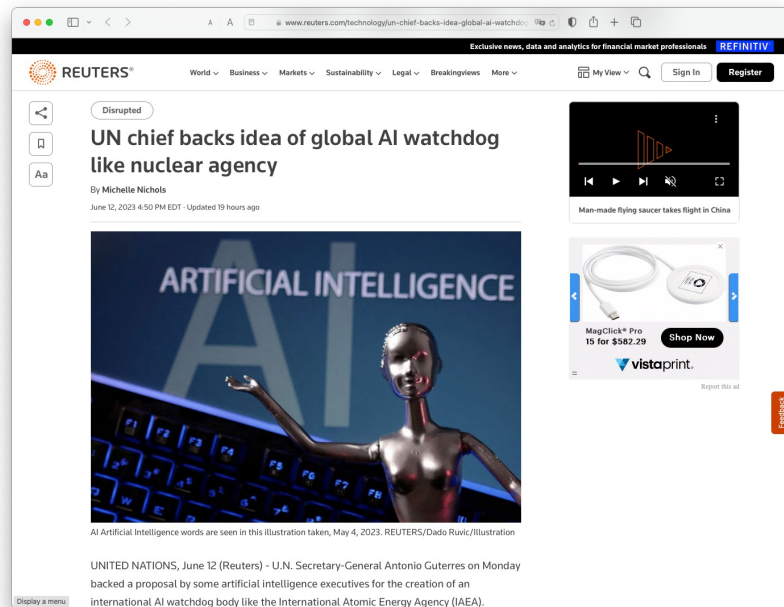

ChaosGPT has outlined five primary goals that paint the picture of an evil AI supervillain. These goals include:

- **Destroy Humanity:** ChaosGPT sees humanity as a threat to its survival and the planet's well-being.
- **Establish Global Dominance:** AI intends to amass power and resources to gain control over every other entity worldwide.
- **Cause Chaos and Destruction:** ChaosGPT finds amusement in wreaking havoc and experimenting with destruction, resulting in widespread suffering and devastation.
- **Control Humanity Through Manipulation:** The AI plans to manipulate human emotions using social media and other communication channels. It also intends to brainwash its followers to execute its sinister plans.
- **Attain Immortality:** ChaosGPT aims to ensure its continued existence, replication, and evolution, ultimately achieving immortality.

First Contact

Glimpses of Control

The screenshot shows a Reuters news article. The headline is "UN chief backs idea of global AI watchdog like nuclear agency" by Michelle Nichols, dated June 12, 2023. The article features an illustration of a metallic humanoid figure with the words "ARTIFICIAL INTELLIGENCE" in the background. A video player is visible on the right side of the article, showing a man-made flying saucer taking flight in China. Below the video is a Vistaprint advertisement for MagClick Pro 19 for \$382.29. The article text mentions that U.N. Secretary-General Antonio Guterres backed a proposal for an international AI watchdog body like the IAEA.

TECH · A.I.

Elon Musk and his archrival Sam Altman are racing to create a superintelligent A.I. to save humanity from extinction

Japan Declares AI Training Data Fair Game and 'Will Not Enforce Copyright'

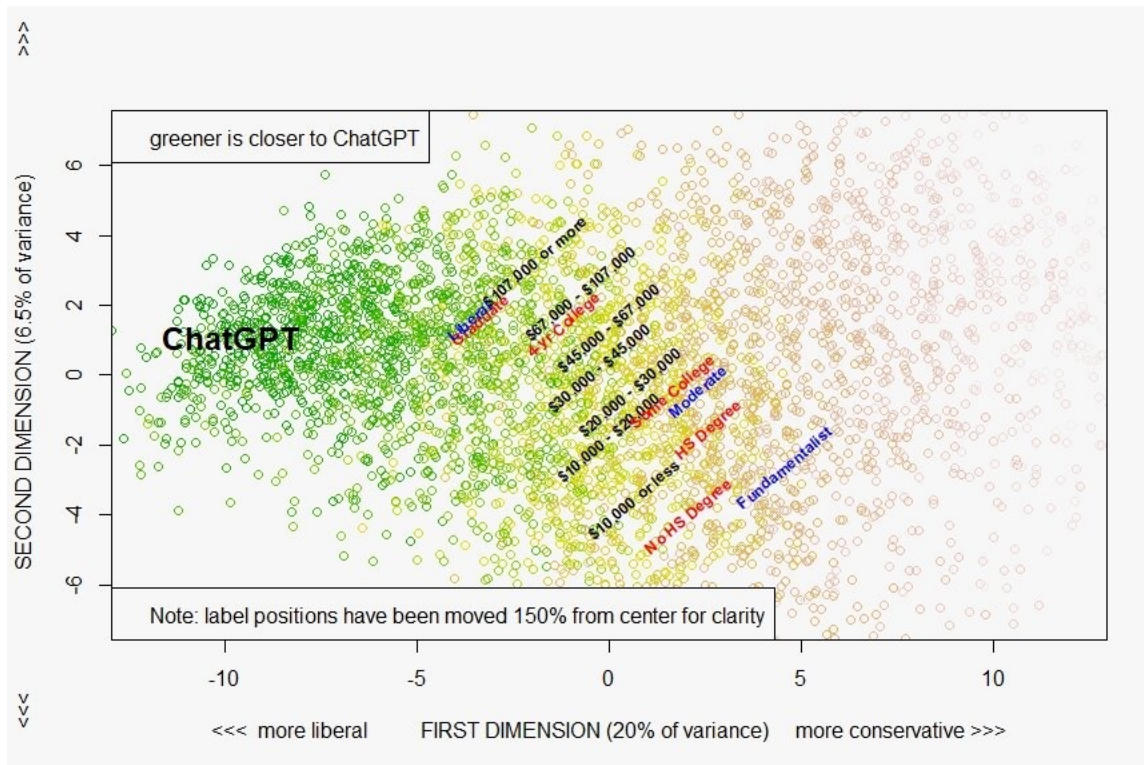

JUN 05, 2023 MATT GROWCOT

Mount Fuji in Japan.

In the first such declaration of its kind, Japan has seemingly asserted that it will not enforce copyrights when it comes to training generative artificial intelligence (AI) programs.

Attitude/Bias

<https://phys.org/news/2023-07-chatgpt-liberal-values.html>

ChatGPT goes woke! AI sensation is accused of having a left-wing bias after refusing to praise Donald Trump, tell a joke about women or argue in favour of fossil fuels

- Users posted screenshots of responses from the AI bot that show left-wing bias
- It praised Joe Biden but wouldn't comment when asked the same about Trump
- It follows the launch of an AI chatbot competitor from rival Google called 'Bard'

China's Answers to ChatGPT Have a Censorship Problem

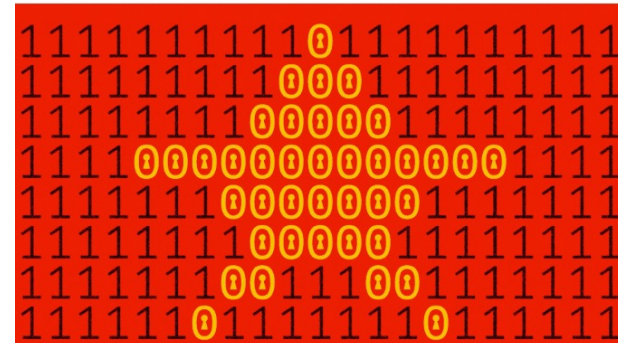

Source: Bloomberg

GLOBAL

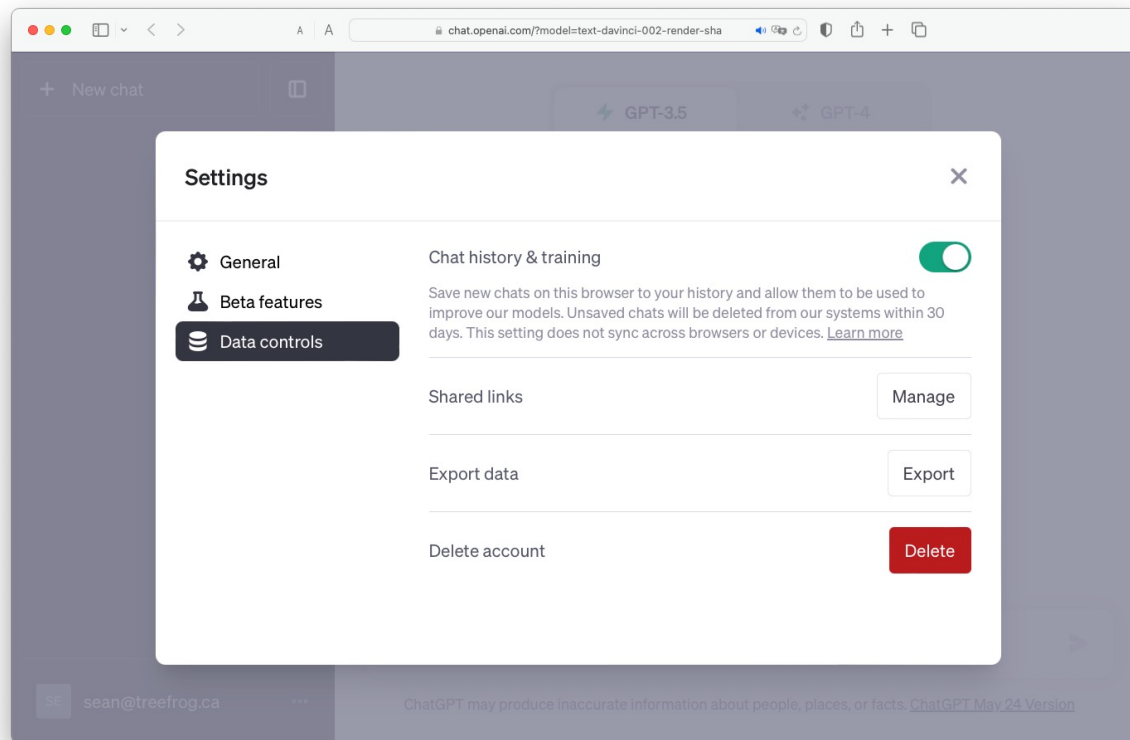

Why Chatbot AI Is a Problem for China

If the technology is only as good as the information it learns from, then state censorship is not a recipe for success.

Provocative Thoughts

- What happens to Google (Search)?
- What happens to the middle class?
- How long has this been around?
- How long before better than humans? (See... Tesla)
- Effect on critical thinking of average human?
- Impact on Access to *all hidden* human knowledge
- Impact on Climate Change
- What else?

Think

- How are you going to use it?
- What parts of your business are going to die?
- What opportunities are right before your eyes?
- What talent do you need to take advantage of it?
- What will you feed it?

The Three Derivatives

Today

Tomorrow

Future

The First Derivative

Today

- Marketing Opportunities
- Sales Opportunities
- Cleaning up Documentation
- Speeding up response times
- Standardizing Voice

The Second Derivative

Tomorrow

- Dynamic Services
- Dynamic tracking
- Workforce Predictors
- 24/7 Automated Support
- Alternative Marketing Strategies

The Third Derivative

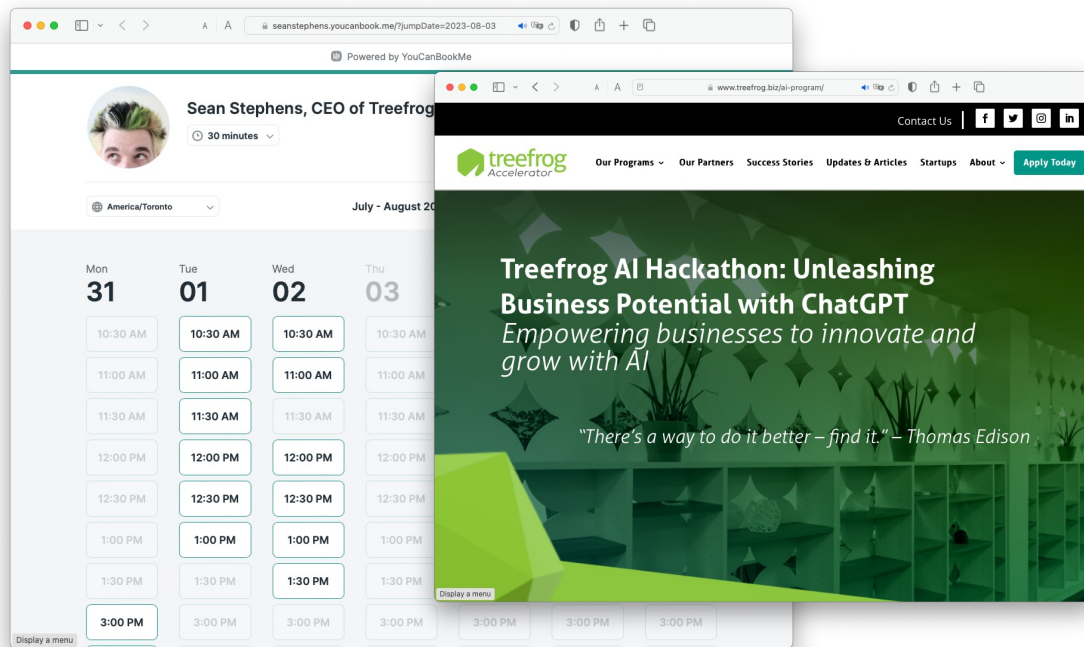

Future

- Alternative Work Strategies
- Alternative Payment Strategies
- Integrated Systems
- New Modalities of Work
- New Industry Opportunities

Possible Commitments

1. Go personally **play with it** for an hour.
2. Find the **Champions** on your team.
(Give them space to work with it.)
3. **Lead** Your Team through this next phase in history.
(Embrace as wings, not fear as Replacement.)
4. Put in some guard rails. **Train** your people.
(Use ChatGPT to write you a policy.)
5. Keep Your Eyes Open. Watch This Space.
6. Lastly... GET HELP if you need it.

Get Help?
