*"My philosophy is straightforward:
Make it happen!"*

TEC CEO Chair, TEC KEY Executive Chair
Quebec City, QC

Hello!

Since 2007, I've had the privilege of serving as a TEC Chair, and my reputation is built on my ability to synthesize and simplify complex issues, coupled with a direct approach to sharing knowledge.

Throughout my career, I have served as Chairman of the Board for numerous development bodies, conducting strategic studies across diverse industry sectors. This includes analysis of the aerospace, mining, ground transportation, maritime transportation, metallurgy, furniture, lumber, rubber, doors and windows, and kitchen cabinet industries. I have also worked with multinational corporations in sectors like pulp and paper, metallurgy, telecom, and industrial gas production.

As a chair, I lead four TEC groups, bringing my ability to help TEC members blend the best of business theory with practical application. My diverse background and experience across various industry sectors prove invaluable to my TEC group members.

On a personal note, I have shared my knowledge by teaching Bachelor and MBA programs at Laval University, UQAR, and UQTR for 14 years. I have led over 400 projects and served as Chair and an expert on the restructuring committee of over 130 organizations. Additionally, I am a member of the Board of Directors of the Quebec Winter Carnival. Outside of my professional life, I am an avid wine enthusiast, officially recognized by several international wine brotherhoods. I proudly call Quebec City my home.

My TEC Group Vision

Our members strongly agree that an enterprise cannot develop itself more rapidly than its CEO develop him or herself.
