## Hello!

As a leader dedicated to creating exceptional learning experiences, I have built a reputation for strategic planning and expertise in organizational development. With In my 23 years of university teaching, I have advocated relationship building and strong communication of corporate values within an organization as I believe that commitment in these two areas bring out the best in teams.

On a personal note, I hold the title of Associate Professor Emeritus at UBC. I have also served as the Past President of the PC Psychological Association.

## My TEC Group Vision

The best learning environment is one that first provides foundational ideas and then encourages the opinions and perspectives of the group. It is important to challenge individuals to ask, 'what's right, right now?'
