TEC CEO Chair  
Kitchener / Waterloo / Toronto, ON

## Hello!

With over 25 years of executive leadership experience, I have led organizations through substantial growth and sustainable solutions. I am a community builder, focusing on partnerships, communication, and finding common goals with multiple stakeholders.

In my previous role with the City of Swift Current, I led the strategic plan for revitalizing the downtown market and infrastructure in response to Saskatchewan's rapid business growth. Through collaboration with the City Council and building long-term partnerships within the community, I broke records of development activity from 2011 to 2015, successfully elevating civic pride. Additionally, I secured a billion-dollar investment for a gas-fired electrical generation, contributing to Swift Current's rising reputation as a business epicentre.

More recently in my role as CEO of the Southbridge Development Corporation, I created and implemented a 10-year strategy for a community hub-based model for the Southbridge Care Homes Long-Term Care Facilities.

As a TEC Chair, I warmly welcome members who share values of integrity, dedication to growth, sustainable development, and supporting the Canadian business community.

On a personal note, I hold a B.A.Sc. in Civil Engineering (Honours) from the University of Waterloo and co-authored an academic textbook titled "Watershed Health Monitoring Emerging Technologies". My work on the Laurel Creek Watershed Monitoring Program earned a United Nations designation as a Global Good Practice and a Dubai International Award for Best Practices in Improving the Living Environment. I also received a Bravo Excellence Award for leading the development of the Green Energy Strategy in Ontario. Outside of my professional life, I enjoy windsurfing and running and am a proud mother of two boys.

## My TEC Group Vision

To increase the effectiveness and enhance the lives of CEOs through an environment of growth, challenge, care and trust.
