

Gord Moker

"We are a diverse group of small business leaders who share common values and recognize that our differences are essential to the group's power of perspective."

TEC Small Business Chair
Regina, SK

Hello!

Having cultivated a leadership career spanning nearly 45 years across the public, private, and not-for-profit sectors, I take pride in motivating teams and helping results-driven leaders reach their highest personal and professional potential. I am a strong believer and advocate for the power that stems from effective collaboration, company-wide enthusiasm, and genuine connections among teams.

My journey commenced as a manager with HSBC Bank, where I learned the integral role of strong financial health in growing and sustaining a successful business. This experience positioned me for subsequent roles as the President of Moker Farm Products Ltd, a family business recognized for its business growth and exemplary customer service, and as the Revenue & Research Team Leader at the Saskatchewan Workers' Compensation Board. In the latter role, I built and managed high-performing teams, consistently exceeding customer service targets and fostering relationships with the workers, employers, and the people of Saskatchewan.

In 2005, I accepted the position of CEO at Safe Saskatchewan Inc., a Canadian-based not-for-profit dedicated to eliminating unintentional injuries in the province. In this role, I was responsible for the collaborative development of comprehensive provincial injury-prevention strategies. I also influenced over 650 leaders to support the continuous improvement of healthy and safe workplaces and communities by signing the Saskatchewan Health & Safety Leadership Charter and committing to its principles.

Throughout my career, I have received consistent recognition for business development and customer service achievements. As a TEC Canada Chair, my vast experience and reputation for leading strategic decisions that inspire long-term growth empower my members to accelerate their development, bolster their organization's financial health, and enhance the well-being and productivity of every employee.

On a personal note, my wife and I have two grown children, a grandson, and a furry friend. I find joy in gardening, yard work, and spending quality time with family and friends. Additionally, I have a passion for performing four-part acapella harmony in the Barbershop Style, and making a difference in the lives of others through the transformative power of music.

My TEC Group Vision

I strive to bring together a diverse assembly of successful business leaders whose trust and respect for one another leads to frank conversations, unvarnished guidance and advice.
