

Sean Stephens

Delivering excellent content to TEC groups since 2023

Sean will be joining us to share his presentation titled:

ChatGPT: Life as We knew it is Over

Generative AI, particularly ChatGPT, possesses revolutionary potential. It will reshape civilization and disrupt businesses, causing job shifts and industry transformations. Is your group fully aware of its significance and equipped with a strategic plan? Join Sean's dynamic presentation to stay informed about generative AI technologies, their impact on society, and participate in a thought-provoking workshop. This framework will empower every company to leverage ChatGPT and gain a competitive advantage as they move forward.

About Sean

As the CEO of Treefrog Inc., Sean gets to regularly work with companies all over the world to strategically leverage branding, marketing and technology to hyper-charge their businesses. Sean's access to world-class talent and innovative ideas and technologies are regularly leveraged by CEOs across the world to achieve astonishing growth and results. Sean gets to meet and work with CEO's across all industries and walks of life, and gets to bring new technologies regularly to bear in new and interesting places. Recently, the Treefrog team (lead by Sean) has started deeply investing in AI-based marketing tools - especially ChatGPT - with astonishing results. He can help you see opportunities for your business you may have not already seen.
