

# Glen Farrell

TEC Small Business Chair  
Scarborough, GTA, ON

## Hello!

As a TEC Chair, I help growth-minded owners turn complexity into clarity—so they can scale with less chaos and more control. I draw on many decades leading transformation in fast-moving environments as President & Founder of Modern Consulting Group, where I guide organizations from legacy systems to modern, automated, AI-enabled operations. Earlier in my career I held senior roles at ATI and AMD and served as Head of Operations at Grab Singapore during a critical growth phase, helping prepare the company for its IPO. I built high-performing teams and stood up core functions—customer support, QA, and release management—across new countries and departments. I'm known as a "Swiss-Army-knife" leader who can zoom in strategy or pivot to execution, always anchored in practical outcomes.

## My TEC Group Vision

Our group is a high-trust, high-accountability room for entrepreneurs who are beyond the first plateau and ready to build the next layer of leadership or their business. Ideal members are operators typically in the ~\$1M–\$5M range who want to optimize systems and processes, reduce owner-dependence, and scale sustainably. We challenge assumptions, share playbooks, and hold each other to outcomes—combining curiosity, candour, and momentum.

## Personal

I'm a long-game golfer, avid traveler, and committed community volunteer—supporting hospice programs. I value connection, authenticity, and growth—whether on the course, across the table, or in life's big chapters.
